Continued from page 2 region towards roads chosen by London and Paris based on colonialism. Of course these disparate efforts of these fanatic leaders of Iran and the reactionary circles of Pakistan in the implementation of the imperialistic plans in the region is mostly referred to the people and country which has been working for the downfall of imperialism every now and then so that it should be completely eliminated from the surface of this soil. Therefore the interference of imperialism through fanatic leaders of Iran and the reactionary circles of Pakistan in our internal affairs is not accidental but is the resultant of the cunning tactics of imperialism, says the paper.

The paper after further explaining the point mentions that the logical analysis of such excessive acts of right and left against our great Saur Revolution during the past few months in our country reveals the fact that such acts will bear no fruits for imperialism and its lackeys.

Sangshikan in his article published on this page of the paper entitled "On the path of a great and historic

ical examination" discusses the grave responsibilities of our toilers in the light of our khalqi revolution and state.

Niro in an article published on the same page of the paper discusses the scientific and practical aspects of the PDPA, the vanguard of the workers of the country in the light of the speech of our Great Leader Noor Mohammad Taraki.
